**A REQUISITION TO ALLOW PC SALT LAKE TO REFER
MY FATHER TO EMPANELLED HOSPITAL**

1. Ref your email on the subject dt 15 Apr 2022.
2. On scrutiny of the facts mentioned in your e-mail pertaining the treatment of your father Ex NK Gopal Chakraborty, it appears that the treatment advised by Dr Biswas is suiting him better as he is recovering.
3. It is though further intimated that as regards of obtaining OPD treatment/investigations from any Empanelled Hospital/Diagnostic Centre. It is mandatory to generate a referral from ECHS polyclinic, Salt Lake for the respective Hospital/Diagnostic Centres to submit claims at their end. This requires registration of the individual at Polyclinic Salt Lake by the ECHS Card.
4. In view of the above, if your father is unable to come to polyclinic as stated by you, it is requested to send any representative of yours alongwith all relevant medical investigations documents and X-Ray plates and your fathers ECHS card for registration, doctor's assessment and generation of referral document.
5. Lastly, I would like to humbly state that it would be extremely unethical to ask the doctor to generate referrals for OPD consultation/Laboratory investigations for any patient without examining him/her and without card.
